

RESPONSE FORM:
Public consultation on proposed
new multi-purpose, all-weather sports facility

We want to know what people think about the plans for the new sports facility and what your main priorities for the new facility would be. We particularly would like to know what other facilities the space could support, including those that are not directly sports-related.

You have from 18 February until 10 March 2019 to share your views with us; however there will be future opportunities to have your say as the project progresses.

It is vital that we understand how people within our community feel they would most benefit from this new facility and what matters the most in terms of this development.

Please read the consultation information sheet and take a look at the graphics visualising what the new centre could look like, before answering the following questions.
